

Early Support Offer

Little Bo Peep Ltd is committed to safeguarding and promoting the welfare of children and young people and expects all staff and volunteers to share this commitment.” Providing Early Support to our children and families at Little Bo Peep means we are more effective in promoting support as soon as we can.

Early support means providing support as soon as a problem emerges, at any point in a child's life, beginning with the start of our children's journeys at Little Bo Peep. We endeavour to create an ethos that promotes trust between all adults and children, so that all children know that the staff who care for them through their journey at Little Bo Peep make them feel safe and secure. We believe that safeguarding is everyone's responsibility. Claire Hull Senior (Manager) is our Designated safeguarding lead, Sarah Regan (Deputy Manager at Nursery) and Toyah Riley (Deputy Manager – Pre-School) are Deputy Designated safeguarding leads. Sophie Reeves (Nursery) and Jenn Tanner (Preschool) are also Deputy Designated Safeguarding Leads. All staff receive annual safeguard training through the DSL, as well as regular updates through continuous professional development. Any new staff receive the full safeguard training, again delivered by the DSL as part of their induction to the company. The diagram below shows the range of needs at different levels. We use this graduated approach to make sure we provide the best support for different families' individual situations.

Providing early support to our children and families at Little Bo Peep means we are more effective in promoting support as soon as we can. Early support means providing support as soon as a problem emerges, at any point in a child's life, from babies through to teenage years.

Working Together 2018 identifies that: “effective early help relies upon local organisations and agencies working together to:

- identify children and families who would benefit from early support
- undertake an assessment of the need for early support

- provide targeted early support services to address the assessed needs of a child and their family which focuses on activity to improve the outcomes for the child

Local authorities, under section 10 of the Children Act 2004, have a responsibility to promote inter-agency co-operation to improve the welfare of all children. Local organisations and agencies should have in place effective ways to identify emerging problems and potential unmet needs of individual children and families. Local authorities should work with organisations and agencies to develop joined-up early support services based on a clear understanding of local needs. This requires all practitioners, including those in universal services and those providing services to adults with children, to understand their role in identifying emerging problems and to share information with other practitioners to support early identification and assessment”.

Early Help can support children and their families who may be struggling with:

- Routines and family rules
- Families who may not be eating healthy food
- Keeping to a healthy lifestyle
- Children who are caring for a family member
- Children who may not want to go to school for different reasons
- Disability within the family including children being a young carer
- Children in the family have special educational needs (SEND)
- Children who may becoming involved in anti-social or criminal behaviour
- Children who go missing from home
- Children or parents / carers misusing drugs or alcohol
- Children at risk of being tricked, forced, or made to work in the criminal world
- Children who may need support because they may live in a home and see drug or alcohol abuse or adult mental health problems.
- Children who have parents who argue a lot (and sometimes might hurt each other) whether the parents live together or apart.
- Children at risk of being groomed to join groups which support illegal views
- A privately fostered child (a child from another family living within your family home)

Early support relies upon local groups and people in the community, sometimes we work together to help children, young people, and their families.

Everyone needs help at some time in their lives and therefore an ethos of early support is important for any setting.

To download this booklet, please visit: [The Family Hub | Worcestershire County Council](#)

Children's Centres in Worcestershire

Children's Centres in Worcestershire are run by lots of different providers. Many of them are run by schools and early years settings (e.g. nurseries) providing childcare, antenatal and postnatal services and in some cases extra services, such as speech and language and family support, to meet the needs of families in their local area.

As well as the centres run by schools and settings, there is at least one Children's Centre in each district that is run by Parenting and Family Support providers who Worcestershire County Council commission (fund) to deliver groups and support to parents and families. Activities such as stay and play groups, baby massage and breastfeeding support groups continue to be delivered across Worcestershire and are often run by trained volunteers or independent groups. You can find your local children's centre by going onto the family hub link.

SEND (Special Educational Needs and/or Disabilities)

As a setting we believe that every child is unique, it is important that we treat the children as individuals and support their needs. Our staff are trained to aid children and offer additional support where needed. We have access to different agencies who can offer advice and make sure we are supporting the children to the best of our abilities.
